SUMMARY

Full-stack software engineer with production experience in **Java**, **Spring Boot**, **React**, and **TypeScript**. Built REST APIs, **Apache Kafka** event pipelines, and role-based access control inside enterprise microservice systems at General Motors, serving 3,000+ dealerships. Currently co-founder of PolarisCove Studios, a web development studio, owning architecture, delivery, hosting, and database administration for client builds. Open to full-time engineering roles in the US or internationally, including relocation with visa sponsorship.

SKILLS

Languages:	Java, JavaScript, TypeScript, Python, SQL
Frontend:	React, Next.js, React Native (Expo), Angular, Tailwind CSS, HTML, CSS, Bootstrap
Backend:	Spring Boot, REST APIs, Apache Kafka, Node.js, Event-Driven Architecture, Microservices
Databases & Cloud:	PostgreSQL, MongoDB, SQL, Appwrite, AWS (SAA-C03 in progress), Docker, Hosting & DB Administration
Testing, CI/CD & Tools:	JUnit, Mockito, Unit Testing, GitHub Actions, GitLab CI, Git, Code Review, IntelliJ IDEA, Android Studio
CS Foundations:	Data Structures, Algorithms, Design Patterns, Object-Oriented Programming, Agile/Scrum

PROFESSIONAL EXPERIENCE

PolarisCove Studios

Co-Founder & Full-Stack Developer · polariscovestudios.com Jul 2025 – Present

- Built and shipped **4+ client web applications** end to end, from database schema through deployed **React** front end.
- Took over broken inherited codebases, diagnosed issues through **root cause analysis**, and returned sites to production.
- Manage **hosting and database administration** for live client sites, owning deployments and ongoing maintenance.
- Delivered the Mead Memorial Chapel advocacy site with petition UI, newsletter signup, and document upload components.
- Built modular **React** components wired to REST APIs; mobile-first, accessible UIs in **Tailwind CSS**.

General Motors

Software Engineer May 2022 – Jul 2025

- Optimized a critical SQL query from **10s to under 4s**, clearing a daily reporting bottleneck.
- Contributed to a **Java 9 to 21 upgrade** across 18 repositories, modernizing the backend stack with two engineers.
- Built two **Apache Kafka** pipelines: a nightly batch consumer and a real-time event stream for a dealership app.
- Designed and shipped a REST API endpoint returning curated car part results from dynamic dealership inputs.
- Built authentication REST APIs and an **RBAC** system with dedicated endpoints across distributed services.
- Refactored legacy Java components and resolved performance bottlenecks across three microservice applications.
- Modernized **React/TypeScript** components on a dealership management platform used daily by dealers.
- Wrote **JUnit** and **Mockito** unit tests, reviewed code, and delivered within 3-week Agile sprints.

CVS Health

Operations Manager (2026–Present) · Operations Supervisor (2020–2022)

Jun 2020–Apr 2022, Jan 2026–Present

- Lead daily operations, regulatory compliance, and data-driven workflow improvements for a retail pharmacy location.

Verbotics AI

Project Leader & Frontend Developer

Jan 2020 – May 2020

- Designed AI-powered search and delivered a working prototype and stakeholder presentation approved for implementation.

PROJECTS

- **AI Resume Analyzer** — Resume-to-job-description scoring tool. Claude Opus API, React Router, TypeScript.
- **Shift Tracker** — Android shift-tracking app built for a freelance client. React Native, Android Studio.
- **Macro Tracker** — Cross-platform macro tracking app with component state and local storage. React Native, JavaScript.
- **Job Scraper** — Python script that pulls and filters job postings across boards for a personal search workflow.
- **Image Storage App** — Upload and retrieval app built on Appwrite for backend storage and auth.

EDUCATION & CERTIFICATIONS

University of Massachusetts Boston

Sep 2016 – May 2020

Bachelor of Science, Computer Science · Boston, MA

- AWS Certified Solutions Architect – Associate (SAA-C03), in progress · Udemy Full-Stack Bootcamp, completed
- Languages: English (Fluent) · French (Fluent)
